Communicate with confidence, credibility and control

Reputations can be ruined in a moment. An ill-judged tweet, an “off the cuff” comment in a media interview or a poor presentation can undo decades of good work.

Preparing effectively, with highly experienced media and communication skills trainers, will build your confidence, enhance your skills and protect your reputation.

Whether you need to face a challenging television interview, understand how to write a blog or deliver a presentation at your annual conference, Media Friendly will work with you to hone your messages, rehearse your story and perfect your performance.

Our training is not just realistic and stimulating, it's also informative and fun. We focus on you, building your skills and confidence so that you can simplify complex messages and communicate with impact, power and credibility.

Media Friendly have been empowering senior and aspiring leaders for more than twenty years. We've developed a range of training courses, which can be tailored to your personal requirements and to fit your organisational demands.

All of our scheduled courses are also offered as **bespoke training in your own premises**.

So **talk to us** about your Media, PR and Communication skills training requirements, or **book** on one of our 2022 scheduled courses.

We look forward to working with you soon.

2022 Training Courses

It's been a challenging time for all of us. During the intermittent lockdowns and restrictions we've learnt to embrace new ways of working.

Our preference is still face-to-face training, when this is possible. We take up to six people on a full day media training course. A strong team building element develops naturally throughout the course as participants are encouraged to support each other in the learning experience.

During the pandemic we've found that remote training is an effective alternative. As online attention spans are shorter we keep our online training courses down to half day sessions. We recommend limiting the numbers to three people per half day course. This keeps everyone fully engaged and involved in the training. We also offer one to one remote media coaching, which is ideal for senior leaders who have to deal with urgent crisis media scenarios.

We aren't scheduling training dates in our calendar this year, but instead invite you to contact us and arrange dates to suit you. All of our training is fully tailored, so you will get the training you need, when and where you need it.
